Competency Assessment

The Competency Assessment is based on the PtD competency compendium and is the first step for a global health professional to understand their level of expertise in PSM & prioritise their learning objective.

Introduction to PSM Cycle in Public Health

Based on the framework for procurement and supply management of public health commodities developed by Empower, this course helps you understand the global health system and associated PSM functions.

Quantification & Forecasting in Public Health

Understand the science behind the methodology, tools and processes used to estimate your country's needs for health commodities. We discuss different methods, and how to apply them to different product categories.

Public Health Commodities

This module helps develop a basic understanding of how products on the national treatment guidelines is arrived at. A detailed understanding of the essential medicines concept is explored.

Global Health Procurement

The module discusses processes, personnel & country capacity to carry out effective procurement. Focus is on principles of good procurement practice, writing procurement plans and procurement methods.

Inventory Management of Public Health Products

This course elaborates on the principles of inventory management and various inventory policies and norms. Focus will be on the importance of having an inventory strategy and its implementation.

Effective Use of Medicines in Public Health Programs

This course is about internalising the importance of rational, judicious and effective use of medicines. We discuss aspects such as adverse impact of irrational medicine use, strategies to improve medicine use, importance of Pharmacovigilance, and others.

Storage & Distribution of Public Health Products

This practical and highly useful course simplifies your understanding of how complex distribution system design is done, what GSP and GDP are, how are warehouses designed, among other related topics.

PSM Support Functions & Systems in Public Health

This course presents key support functions & systems such as HR management, budgeting, QA, MIS. It will help you gain understanding on how they indirectly but significantly affect PSM performance.

UNDP: Fundamentals of PSM

In collaboration with UNDP, we have developed a foundation course in PSM for UNDP employees and it is also open for ePGD students. Successful completion of the course gives you a certificate from UNDP !

Final Case Study

Provides an opportunity for the students to apply all the concepts learned in a single project. Outstanding submissions are promoted by Empower on best effort basis to leading public health organizations.

Global Health Leadership

The course discusses case studies with insights from various countries, analysing their successful tackling of issues, & empowering you with holistic understanding on how to accelerate the global health agenda.

Above courses are available as a standalone certificate course; please enquire for more details

PROSPECTIVE CANDIDATES AND ELIGIBILITY

This course is for participants who are working in or aspiring to work in global health PSM, including:

- ✓ Professionals working in NGOs, government organizations, health facilities, pharmaceutical sector or any public health organization

ALUMNI SPEAK

I thank you for this course and giving this opportunity for improving my knowledge; It has been an honor to be a part of Empower School of Health.

Florence D. Guillaume,
Country Director USAID GHSC-PSM (Haiti)

I would like to start by thanking you Empower for being supportive along the way and always encouraging. I am very grateful to my organization Chemonics for this opportunity to me and colleagues.

Ruth Kuria, Office Manager USAID GHSC-PSM, Chemonics International Inc (Kenya)

This course has made me gain a deeper understanding of the real issues that affect procurement and supply chain. This is a must do course for someone who wants to pursue a career in PSCM!

David Munemo,
Ministry of Health & Child Care (Zimbabwe)

The supply chain course is a new frontier in my career. This course was incredible in terms of content and design. Especially the final case study was a new experience for me. Thank you Empower team for your kind support.

Md. Farhan Shahriar, Partnerships Manager Chemonics International Inc (Bangladesh)

The necessary skills acquired at Empower School of Health will go a long way in helping my department & country as a whole.

lakuna Moide,
CHAI (Papua New Guinea)

I am thankful to Empower for giving me an opportunity to participate in the course and I feel very lucky to be taught by experienced trainers.

Viengsavanh Phanmanivong, GFATM PR office Ministry of Health (Lao PDR)

I am privileged to be with the team who has graduated and appreciate the way the course was designed. We really enjoyed the course, enjoyed doing practices, and am also grateful to my organization Chemonics- we will use this knowledge to improve the supply chain management in our area. Thank you.

Juvenal Majoro,
Senior Advisor for Health Systems Strengthening (Rwanda)
